| VII. Mission Moment     | Mrs. Kate Becker introduced Mr. Steve Nuanez, Manager, Employee Well-Being Program. Mrs. Becker stated that a swag bag was sent to all Board of Trustees Members, which is a sample of the items the employee well-being team distributes during their employee well-being rounds. Mr. Nuanez stated that he appreciates being able to present the Mission Moment to the Trustees. He reviewed the background in regards to how the mission of employee well-being program fits within the larger mission of the hospital. The Employee Well-Being Program was initiated in June 2017 – Program Mission: To create and support a thriving culture of well-being at UNM Hospital by providing support services, resources, activities, and training.  Mr. Nuanez described the culture of wellness, efficiency of practice and personal resilience that each of us can do to help us through the challenges of the day. Moving from old culture models of blame and shame and moving towards well being culture; it is human to experience the effects of the work we do and instead of denying it normalizes reactions – we are together – we are a community. A few of the Mission Moment highlights include: handing out snacks during wellness rounds on COVID care units, debriefing with Lifeguard staff following a difficult and emotional patient transport and watching as various team members share their different perspectives and end with a better understanding of how they work together, helping create a Well-Being Champions Team at Eubank Women's Clinic, and conducting a resilience and support session with Urgent Care when a staff member revealed the death of a close relative due to COVID.  UNM Hospital has started a Peer Support Program which will promote a culture of well-being through listening, support and encouragement. Peer support is about being here for one another |  |

# Feedback On My Life-Saving Experience at UNM Hospital - COVID Team

I write in gratitude for the incredible services I received as an inpatient at UNMH from January 13-16 on the COVID-19 floor (5 West, Zinc 3 Team).

The experience of a COVID-19 diagnosis is quite frightening, and I was unsure how to manage my illness while still at home. In 1-1/2 days I went from a COVID diagnosis to COVID pneumonia. When I realized I needed to go to the hospital, UNMH was recommended by my primary care physician. I called for directions and was given excellent parking instructions and specifics on how to find the COVID-ER by a young man who answered the phone, and coincidentally later rolled me from ER to the COVID floor. I am sorry I forgot his name, as he was so thoughtful and upbeat both times we interacted.

I was attended to almost immediately at the ER, and quickly put in a wheel chair and taken to a bed, as I was decompensating quickly. Dr. Patel and his team were all excellent, not just in terms of the professionalism and expertise in identifying COVID pneumonia, but in terms of their thoughtfulness and humane treatment of me in a pretty debilitated state. Dr. Patel also called and reassured my husband.

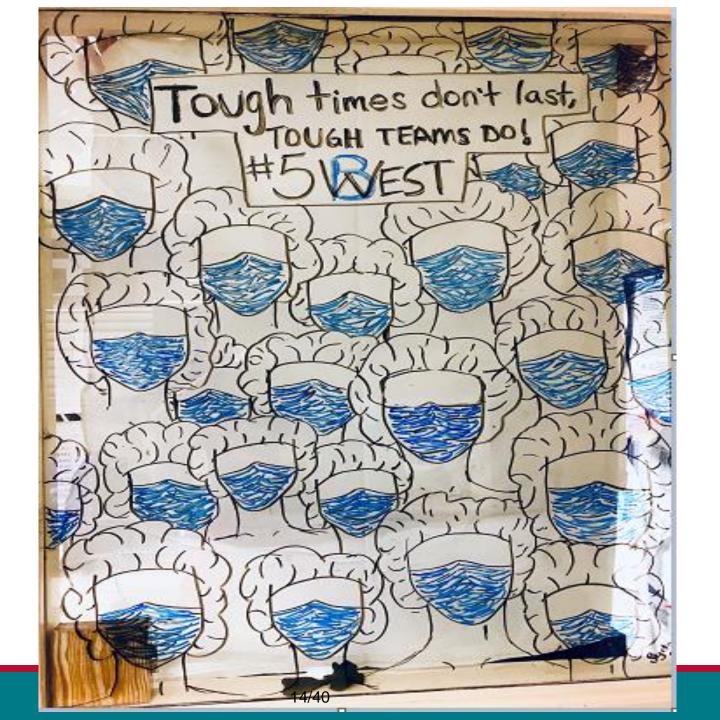

# Praise and Kindness - 5 West (the COVID Floor) Team and Zinc 3 Team

Finally, on 5 West, the COVID floor, where I received care from the Zinc 3 team I have nothing but praise. Dr. Xu was a great physician, very positive and considerate of my needs. The nursing staff – Gabby, my night nurse for three nights, and Hanaa and Jesús, my day nurses – were all very skilled, but also very humane and thoughtful in their treatment. I am especially indebted to Gabby who got me through at least one harrowing night of anxiety, supporting me with both clarity and compassion. I am also indebted to being included in a Clinical Trial for COVID-19 medications.

If I had one word to describe my experience of every UNMH staff member I encountered – over and above their obvious professionalism and expertise – it would be **kindness**. I am so deeply humbled by the care I received, and by the profound commitment of the medical providers in both the ER and COVID floors where they provide such care routinely, for months on end, with mercy and compassion.

Thank you for all you do to make UNMH the quality hospital that it is – I am deeply grateful.

## **Executive Vice President Update**

Dear UNM Hospital Board of Trustees and CEO Becker,

Thanks again for all your support and leadership for UNMH and the UNM Health Sciences Center. Thanks to Dr. Richards for his being able to convey my EVP report today while I am unable to attend. I wanted to share some on-going and exciting work happening in UNM Health and specific to UNM Hospitals.

#### "Listening and Learning Tour" of my first 90 days:

Over the past 90 days I have had the opportunity to continue to meet, listen and learn from many administrative leaders, faculty, students, and staff in our health system and health sciences campus, including recently providing a more comprehensive report to the UNM Regents several weeks ago.

Last Friday I initiated a new **Health System Executive Leadership Group** that includes the Senior Vice Chancellor of Clinical Affairs, CEOs of the Health System Entities and UNM Comprehensive Cancer Center, and Dean of the School of Medicine. We were able to review the October 2019 UNM Health Systems retreat summary, and I was able to share my reflections on what were my observations in the past 90 days and some initial thoughts on our Health System, including planning an updated strategic planning process. At our next meeting I will be able to provide more detail regarding this effort and also how this will align with the UNM "One University" Strategic Planning process.

#### "LEADing To Excellence" (LET) half-day event:

Since our last UNMH BOT, I was able to meet with about 1000 UNM clinical system leaders from all disciplines and specialties, including faculty, clinicians, staff, and administrative leaders. This was a great opportunity for me to thank everyone for their leadership and impact, answer questions, and share about myself, reflections on the first 60 days, and some initial perspectives on critical issues and opportunities for our health care system. The event was filled with fun, tears of joy, and much learning about our current activities, new programs to support our patients, families, and one another, and leadership training on ways to be more effective and enhance our communication and impact. There were many points of pride shared at the meeting. Issues coming into focus for the next year include: COVID & Health Care System transformations – New Tower/Primary Care, Patient experience and quality, Diversity, Equity, and Inclusion – Health Equity, Anti-racism, & Workforce / Learners, Primary Care and Population Health expansion, Wellness and Work Environment, greater collaboration with main campus, and increasing career development, academic activities, and Workforce development. Our primary focus on providing compassionate, state-of-the-art, quality patient care that is accessible and improves the lives of all New Mexicans is most vital.

#### **Education**

I wanted to express my gratitude for all those involved in helping the School of Medicine obtain full accreditation from the Accreditation Council for Graduate Medical Education. This is a major accomplishment and ensures that we continue as the only academic health center in the state. This accreditation covers our 60+ residency and fellowship programs and is essential to our mission.

#### **Diversity**

I want to thank the leadership at UNMH and across campus who put on some excellent Black History Month events. I also wanted to mention that the HSC Inclusive Excellence Council, under the HSC Office for Diversity, Equity and Inclusion, has been formed and will start working on how we can continue to grow, learn from each other and make meaningful change towards a more inclusive and supportive environment. We look forward to also making sure the IEC is able to listen to all the voices, including those who feel invisible and historically not heard or represented. There will be many opportunities for others not on the council to be actively involved, including through subcommittees and other work groups.

#### **Exciting News**

UNM's stroke program has officially been accredited by the Joint Commission as the First Comprehensive Stroke Center in New Mexico. This is a major accomplishment that was years in the making and I want to thank Dr. Michel Torbey, Chair of Neurology, and his entire staff who have been working on this designation.

#### Thank a Resident and Fellow

Today is a very big day! Please take a moment to thank a Resident or Fellow as part of national Thank You day!

#### **Vaccinations Continue**

Just also wanted to touch on the work still happening at The Pit. We have administered more than 36,000 doses of the Pfizer vaccine as of last week. Just an incredible accomplishment and we are ready to ramp up that effort as soon as more shipments of vaccines come to New Mexico. We are working with the state and other health care partners on how the Johnson and Johnson vaccine could be utilized. More news to come on that next month.

Thank you again for the work you all do and your commitment to our institution. I am truly grateful for your service, leadership, and support. Best wishes.

Douglas Ziedonis, MD, MPH EVP of UNM Health Sciences and CEO of the UNM Health System

## **HSC Committee Update**

#### **MEMORANDUM**

To: UNMH Board of Trustees

From: Mike Richards, MD

Senior Vice Chancellor Clinical Affairs, UNM Health System

Date: February 26, 2021

Subject: Monthly Health System Activity Update

This report represents unaudited year to date January 2021 activity and is compared to audited year to date January 2020 activity.

**Activity Levels:** Health System clinical activity remains exceptionally high, particularly in adult inpatient activity, even with decreasing COIVD volumes. In comparison to prior year, key clinical measures include:

- Total inpatient days are up 2%
  - UNM adult inpatient days are up 13%
  - o SRMC adult inpatient days are up 27%
- Total discharges are down 4%
  - UNM adult discharges are up 2%
  - SRMC adult discharges are up 4%
- Adult length of stay (without obstetrics) is up 11%
- Case Mix Index (CMI) is up 9%
- Total outpatient activity is down 1%
  - o Primary care clinic visits are up 2%
  - Specialty and other clinic visits are down 8%
  - Emergency visits are up 43% over prior year
- Surgical volume is down 10%
- Births are down 10%
- UNM Medical Group RVUs are down 7%

**Finances:** Health System had total year-to-date operating revenue of \$937.5 million, representing a 7% increase over prior year. Total non-operating revenue was \$130 million, representing a 17% increase over prior year primarily due to Non-recurring State Appropriations in FY20 and increase in CARES Act Funding not recognized during the same time period last year. Total operating expenses were \$995.4 million, representing a 7% increase over prior year. Health System margin was \$72.1 million as compared to \$57.8 million prior year.

The balance sheet is stable with a current ratio of 1.78 as compared to 1.90 prior year. The cash and cash equivalents for UNM Health System is \$539.5 million as compared to \$422.8 million prior year. Net patient receivables are up 12% and total assets are up 15%. Total liabilities are up 18% over prior year. Total net position is up 12% over prior year.

## **UNMH CEO Report**

#### **MEMORANDUM**

**To:** Board of Trustees

From: Kate Becker

Chief Executive Officer

Date: February, 2021

Subject: UNMH Monthly Activity Update

The Hospital has been involved in a variety of activities and this report will focus on operations through January 2021.

Finance: Inpatient adult volume is better than budget by 14% for the month of January and better than budget by 12% year to date. Inpatient pediatric volume is behind budget 8% for the month of January and behind budget by 7% year to date. Observation days are below budget by 25% year to date. Total inpatient discharges are 4% lower than budget year to date. Case mix index is higher than prior year by 8.8% at 2.24 year to date and average length of stay is up 12% compared to prior year. Outpatient clinic visits are 15% lower than budget for the month of January and are 2% better than budget for the year. Emergency department arrivals are 20% under budget for the month of January and below year to date budget by 18%. Behavioral health patient days are under budget by 7.8% and behavioral health clinic visits are behind budget by 1.9% year to date. Net margin year to date is positive at \$68.5 million with \$43.5 million available for operations after setting aside \$25 million for capital investment. Net patient revenues are positive compared to year to date budget and prior year. Operating expenses are over budget by \$63.1 million, primarily in employee compensation and benefits, medical services and equipment. Non-operating revenues include \$45.1 million recorded for CARES Act funding received from HHS.

Native American Liaison: UNMH is pleased to announce the planned opening of our first permanent UNMH clinic in Gallup, NM! We anticipate opening in mid-March 2021 pending regulatory clearance. The UNMH Gallup clinic will extend specialty services to Northwest New Mexico, serving greater Gallup, Zuni Pueblo, and the Navajo area. This helps us to fulfill our mission as a specialty care provider in New Mexico. Outpatient referrals from tribal healthcare entities to UNMH increased over the last guarter, nearing pre-Covid referral patterns. In early February, UNMH met with Albuquerque Area I.H.S. (AAIHS) to review progress on wait-times within certain subspecialty clinics; of note, wait times for Native American patients has decreased by 6% during 3rd guarter 2020. Our guarterly report on referrals is due to AAIHS in April 2021. UNMH continues to work with the State of NM HSD Medical Assistance Division to capture and report visits eligible for 100% Federal Match. We recently completed a care coordination agreement with 638 Tribal Facility Fort Defiance Indian Hospital. UNM has reached out to Laguna Healthcare Corporation, a new 638 healthcare entity for Laguna Pueblo, as we directly coordinate care and claims for Laguna pueblo members. The new calendar year brings new leadership and change within tribal governments. Several pueblos have new governors this year: Zia, Cochiti, Isleta, Santa Ana, and Ohkay Owingeh. Our team at Native American Health Services has reached out to offer 1:1 orientation for new pueblo leaders. Additionally, a key person at Albuquerque Area I.H.S. is retiring, so we will work closely with AAIHS as they bring in new leaders. Last, there has been turnover at APCG Inc. the administrative arm of the All Pueblo Council of Governors, with Amber Carrillo assuming the executive director role from interim Pam Mahooty. We formally requested our annual Spring consultative visit with APCG and are awaiting confirmation to appear as an agenda item at the APCG monthly meeting on April 22, 2021.

**Bernalillo County:** A Request for Proposal for architectural services for the proposed Crisis Triage center was issued in late January and closed on February 15, 2021. A selection committee with representatives from UNMH and Bernalillo County will evaluate responses and select an architect during March 2021. In addition UNMH and Bernalillo County have initiated planning for the next phase of Behavioral Health program development which would focus on gaps in the system and expanding capacity. Bernalillo County, IHS and UNMH representatives will meet in early March to review and update the status of deliverables under the UNMH Lease Agreement prioritized in Exhibit C of the MOU.

If there are any questions on this or other matters, please feel free to contact me.

## **UNMH CMO Report**

Date: February 26, 2021
To: UNMH Board of Trustees

From: Irene Agostini, MD

**UNMH Chief Medical Officer** 

The CMO Board report for February will highlight the successful Accreditation Council for Graduate Medical Education (ACGME) survey, COVID-19 demobilization and Vaccines at the Pit.

#### ACGME Survey

We are excited to announce that UNM SOM has received Continued Accreditation from the Accreditation Council of Graduate Medical Education (ACGME), the national organization that accredits all sponsoring institutions such as UNM as well as all medical residencies and fellowship. The institution received a commendation for substantial compliance with all institutional requirements, with no citations.

The standards for training residents and fellows have changed over the past 10 years, and we have been keeping up by developing new methods of support and oversight. We received an institutional site visit in October 2020, focused on the learning and working environment and program oversight. The Learning Environment Office was established in June 2019 and has successfully provide guidance and training on creating positive learning environments for all our learners as well as a mechanism for our learners to report concerns. The Senior Associate Dean of Graduate Medical Education, Dr. Joanna Fair, closely collaborates with our UNMH partners (CEO Kate Becker, COO Mike Chicarelli, CMO Dr. Irene Agostini, CNO Patti Kelley) on ensuring the safety and well-being of all our learners in the UNMH environment.

Here is some additional information on next steps:

- UNM SOM GME institutional self-study underway
  - o Due May 31, 2021
- Ongoing oversight of GME programs by the Designated Institute Official (DIO), Dr. Joanna Fair, and Graduate Medical Education Committee (GMEC)
- Continued collaboration with and support by all partners:
  - o Dr. McGrew
  - Learning Environment Office
  - UNMH leadership
  - o Program Directors/Coordinators
  - Resident/fellow council
  - o Dr. Ziedonis

#### **COVID-19 Demobilization**

Our intensive care units continue to be quite full and over our normal 72 bed capacity due to the long length of stay of the very ill COVID patients. The number of progressive care COVID patients has decreased dramatically and we are now better able to provide much of the delayed care that happened during the pandemic. We are now down to three units that house COVID-19 patients.

The BBRP operating room, previously used for adult intensive care during COVID-19, has returned to treating pediatric patients. We are currently utilizing all three operating suites (BBRP, OSIS and Main) at full capacity. Because of the amount of delayed care over the past year, we are working hard to get patients in for the surgeries they need.

#### **COVID-19 Vaccines at the Pit**

Through Feb. 23, UNMH has provided 41,405 COVID-19 vaccines! We continue to work with the NM DOH to create a seamless, efficient process to get New Mexicans vaccinated. We are very proud that New Mexico has remained in the top four states in the nation for vaccines given per 100,000 people.

<sup>\*</sup> CMI Adjusted Patient Days (Adjusted Patient Days X CMI) is to account for the outpatient activities in the hospital and the relative acuity of the patients. CMI is a relative value assigned to a diagnosis-related group. Adjusted patient days (Patient Days X (Gross Patient Revenue/Gross Inpatient Revenue)) is to account for outpatient and other non-inpatient activities in the Hospital. Action OI benchmark is a quarterly report and for July - September 2020 the 50th percentile is 169,943. The metric above divided by three months for comparative purposes.
